IUVSTA

Executive Council Meeting (ECM-120)

Bhurban-Pakistan

March 20-22, 2015

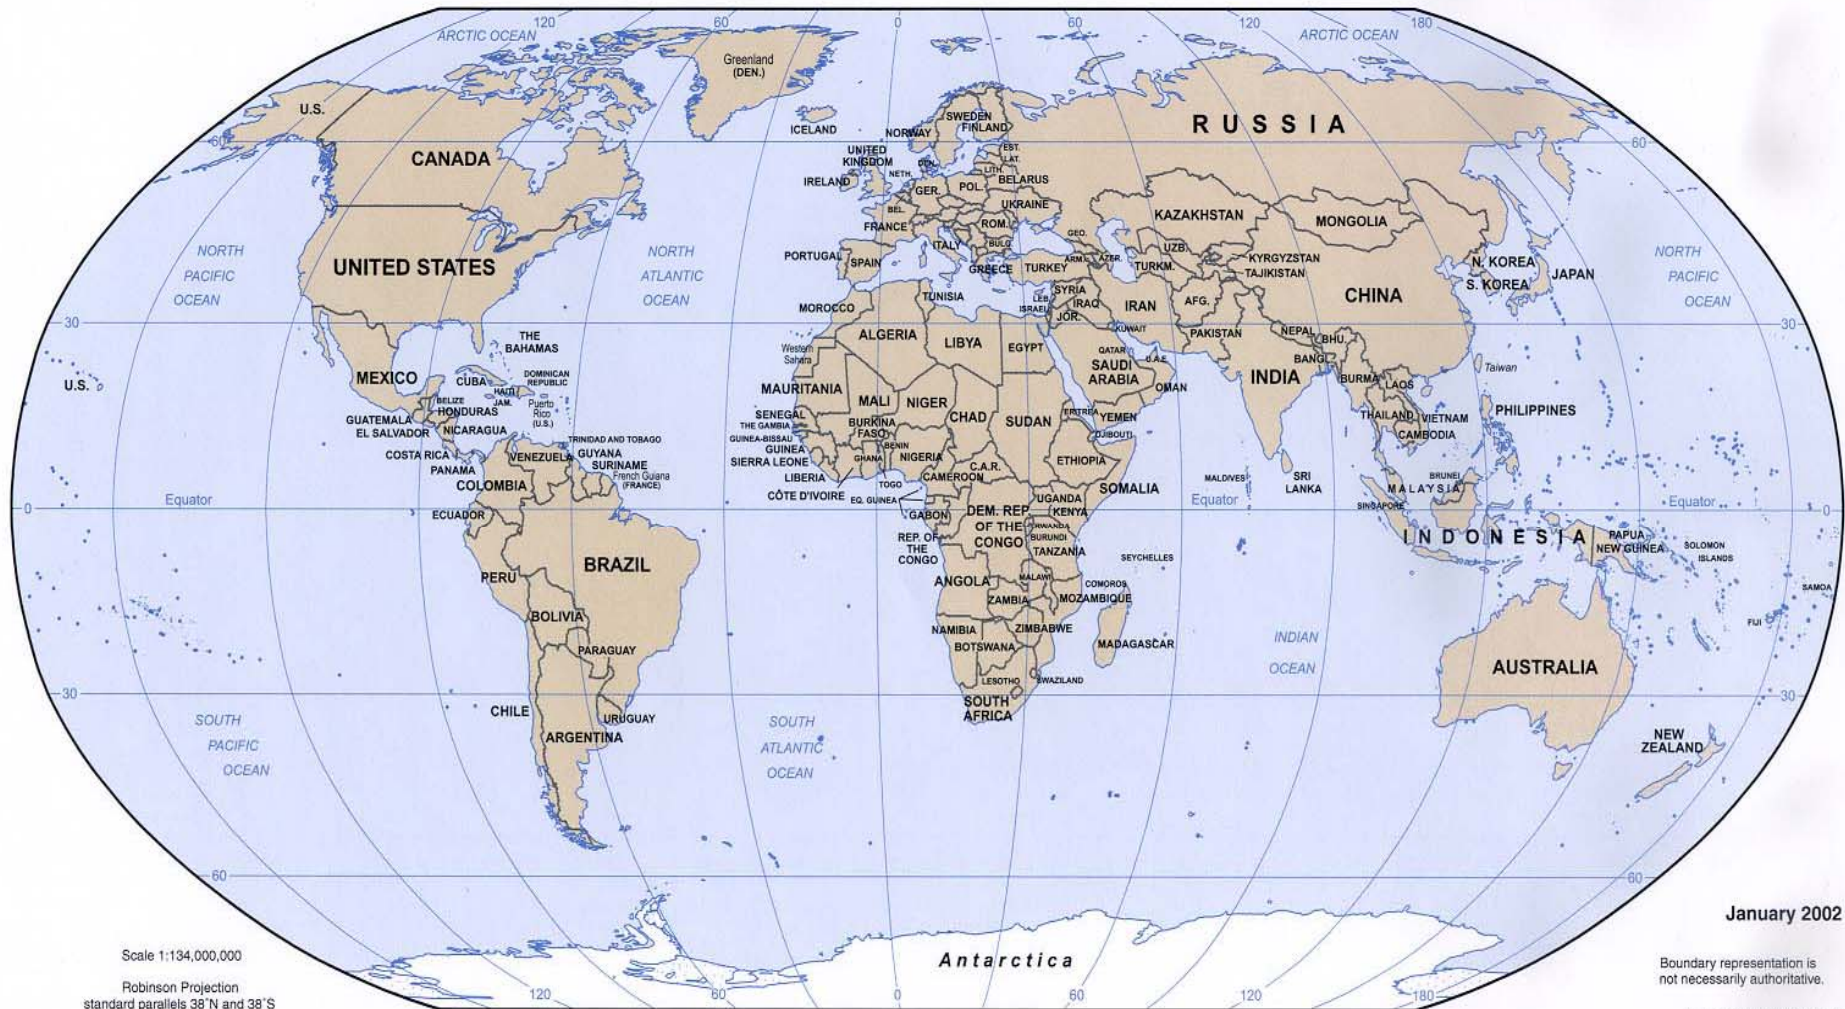

Dr. Javaid Ahsan Bhatti

PVS Councilor to IUVSTA

Venue

Bhurban: It is located at the foothills of the magnificent Himalayas at an elevation of over 2000 m and at a distance of about 60 km from Islamabad, the capital city. It is one of the most picturesque places in the country; a tourist paradise with fauna, flora and a wide variety species of animals not found elsewhere in Pakistan.

Pearl Continental Hotel, Bhurban: It is a magnificent resort hotel of Pakistan which offers a unique experience of defining reunion with Nature. From the hotels balcony there is spectacular view of the paradise on earth, the Kashmir valley, and its snow capped mountains. It is beautifully nestled in the middle of a thick pine forest and other various varieties of flora. In addition, it has an intrinsic beauty, world class adventure sports and personalized luxury make it the most agreeable proposition.

Entry

- **Air:**
Bhurban is two hours drive from Islamabad international airport, which has all the leading airlines flying in and out of the city. Frequent flights are available for travel, within the country, connecting all the major cities.
- **Train:**
The nearest railway station in Rawalpindi has all the major trains connecting to other cities, like Karachi, Lahore, Multan, Peshawar and Quetta.
- **Road:**
Bhurban is reachable by a well-conditioned main road in a scenic journey of about two hours through densely wooded hills. Best deals and best buses can be found in Rawalpindi. Long distance buses leave from and arrive at the Pir Wadhai and Daewoo Bus station. Cars too can be rented with a nominal deposit.

Weather

- The average temperature during the month of March is around 15-20 °C
- Most of the people come to Bhurban to escape the scorching heat in summers (May to September)
- Other visit in the winters to enjoy a rare spectacle of snow (November to February) which is a treat to the people living on the plain.
- Dazzling twilight and cloud effects are daily features during the February-March rains.
