1. Christoph Eisenmenger-Sittner opened the meeting at 10.55 explaining that the Chairman of the Committee, Ivan Petrov, could not be present. He presented the draft agenda which had been posted on the web; there were no changes requested and so the draft agenda was adopted.
2. It was reported that the main activities of the Publications Committee had focused on the Newsletter. The Secretary General mentioned that he had used it as a vehicle to get information from National Societies for the next triennium. Attempts had been made to have an entry on Wikipedia but Martin Wüest had been unsuccessful in this as his entry had been rejected; it was noted that the AVS had an entry as did ICSU although there was no link to the IUVSTA web site from there. It was resolved to keep trying to produce a Wikipedia entry.

3. Under the heading New Business, the Acting Chairman noted that the Committee would oversee the re-design of the web site which was intended to be both outward looking and a tool for facilitating the administration of the Union.
