

2020/2022

IUVSTA CALENDAR

IUVSTA CALENDAR: Conferences, funded Workshops, Schools, Technical Courses, Short Courses

● **2020: 22-26 NOV**
ICTF-18+JVC: Budapest

● **2020?**

TTC-22: Vacuum Technology Applications. **Pakistan**

● **2021?**

TTC-23: From Nano science to outer space. **Argentina**

● **2021: 7-12 MARCH**

WS-94: Reliable sensing and control of reactive plasmas. **Slovenia**

● **2021: SPRING/SUMMER**

WS-91: Surface Chemistry of Catalytic Systems. **Israel**

● **2021 24-28 MAY**

WS-90: Tuning properties of advanced energy materials using modern theoretical and experimental methods. **Spain**

● **2021: 30 MAY -4 JUNE**
EVC-16: Marseille

● **2021: 11-16 JULY**

ICN+T: Vancouver

● **2021: 30 AUG - 3 SEPT**
ECOSS-35: Luxemburg

● **2021: AUTUMN**

WS-93: Surface engineering structures, coatings, and thin films. **Austria**

● **2021: SEPTEMBER**

SC: Low Energy and Photoemission Electron Microscopy. **Spain**

● **2021 13-17 SEPT**

WS-92: Advanced Spectroscopy and Transport for 2D Materials at Surfaces. **Japan**

● **2021: 4-7 OCTOBER**

WS-95: Plasmonic Thin Films: Theory, Synthesis and Applications. **Portugal**

● **2021: 11-14 OCTOBER**

VASSCAA-10: Shanghai

● **2021: OCT-NOV**

TTC-21: Vacuum technology, principles and applications. **Slovakia**

● **2022: SEPT**

IVC-22
