The abstract deadline has been extended to August 30th.

Scientific Topics

- Accelerator & Radiation Sciences & Technology
- Applied Surface Science
- Biosurfaces, interfaces, nanostructures
- Electronic Materials/Processing
- Magnetic surfaces, interfaces & nanostructures
- Nanometer-Scale Science & Technology
- Catalytic materials & processes
- Plasma Science & Techniques
- Surface Engineering
- Surface Science
- Thin Film
- Vacuum Science & Technology
- Renewable Energy Technologies

Important Dates

- Call for paper: October 01, 2023
- Abstract submission Closes: June 01, 2024
- Notice of acceptance: June 25, 2024
- Early bird Closes: July 31, 2024

About Us

The VASSCAA series is organized to create a new forum in Asia and Australia to discuss vacuum, surface and related sciences, techniques and applications. The conference is officially endorsed by the International Union for Vacuum Science, Technique and Applications (IUVSTA), and has subsequently been organized once every three years, and later every two years, starting from 1999, and has ever since expanded its activity to encompass numerous eminent speakers worldwide. More than 250 papers are expected to be presented in oral and poster sessions covering frontline research of Vacuum and Applied Surface Sciences. Collected papers through review presented in the conference will be published in the special issue of Applied Surface Science and Vacuum.
